

TenantConfiguration Default Specification

This document outlines the default values and structures for the [TenantConfiguration](#) model.

Top-Level Fields

Field	Default Value
config_id	Required (No default)
company_id	Required (No default)
company_name	Required (No default)
industry	"home_services"
primary_services	[]
version	1
is_active	True
created_at	datetime.utcnow()
updated_at	datetime.utcnow()
created_by	None

updated_by	None
service_area	[]

Nested Configurations

1. QualificationThresholds

Field	Default Value
hot_min_score	0.75
warm_min_score	0.5
cold_min_score	0.25
need_weight	0.3
budget_weight	0.2
authority_weight	0.2
timeline_weight	0.3

2. QualificationRules

- **Default:** [] (Empty list)
- **Structure:**
 - rule_id: Required
 - name: Required
 - description: Required
 - condition: Required
 - action: Required
 - action_value: None

- priority: 0
- enabled: True

3. ServicePrioritization

Field	Default Value
services	[]
defer_low_ticket_during_high_demand	False
high_demand_threshold	None
default_priority	ServicePriority.NORMAL

ServiceConfig (within services):

- service_type: Required
- display_name: Required
- priority: NORMAL
- current_wait_time_weeks: None
- is_active: True
- qualification_boost: 0.0
- notes: None

4. CustomKeywords

Field	Default Value
urgency_keywords	[]
budget_keywords	[]
objection_keywords	[]

service_keywords	{}
------------------	----

5. BusinessHours

Field	Default Value
timezone	"America/Phoenix"
weekday_start	"08:00"
weekday_end	"18:00"
saturday_start	"09:00"
saturday_end	"14:00"
sunday_closed	True
holidays	[]

6. PropertyDetailsConfig

Field	Default Value
extract_roof_type	True
extract_roof_age	True
extract_hoa_status	True

extract_gated_status	True
extract_pets	True
extract_solar	True
custom_property_fields	[]

7. ScopeConfig

Field	Default Value
excluded_tags	["production", "accounting"]
excluded_call_path_options	["4"]
tag_confidence	{"production": 0.9, "accounting": 0.85}
call_path_confidence	0.8
llm_confidence_threshold	0.7
custom_out_of_scope_signals	[]
custom_in_scope_signals	[]

8. IndustryContext

Field	Default Value

industry_description	None
service_focus	[]
geographic_region	None
high_urgency_signals	["active leak", "water coming in", "emergency", "storm damage", "hail damage"]
medium_urgency_signals	["before monsoon", "insurance deadline", "inspection period"]
custom_urgency_signals	[]
extractable_fields	<i>(See List Below)</i>
call_stages	["Greeting & Identification", "Needs Discovery", "Qualifying", "Scheduling", "Setting Expectations", "Close & Confirmation"]
call_stage_descriptions	{}
decision_maker_indicators	<i>(See List Below)</i>

Default Extractable Fields:

- **roof_type:** tile, shingle, flat, metal, foam
- **property_stories:** single story, two story
- **hoa_status:** in an HOA or not
- **gated_community:** gated or not gated
- **pets_on_property:** dogs, cats on property
- **solar_panels:** solar on the roof or not
- **roof_age:** age of roof in years

Decision Maker Indicators:

- **primary:** ["I decide", "it's my house", "I'm the owner"]
- **secondary:** ["spouse", "husband", "wife", "partner"]
- **approval_needed:** ["need to check with", "husband has to see", "need approval"]

9. ScoringConfig

Field	Default Value
objection_penalties	{"high": -10, "medium": -5, "low": -2}
objection_type_multipliers	{"price": 1.5, "competitor": 1.2, "timing": 1.0, "trust": 1.3, "authority": 1.1, "need": 0.8, "other": 1.0}
bonuses	{"urgency_high": 10, "urgency_medium": 5, "referral": 10, "inbound": 5, "multiple_decision_makers": 5, "explicit_need": 5}
urgent_timeline_keywords	["asap", "immediately", "urgent", "emergency", "this week", "next week", "today", "tomorrow"]
nearterm_timeline_keywords	["30 days", "1 month", "this month", "next month", "60 days", "2 months"]
medium_timeline_keywords	["90 days", "3 months", "quarter", "few months"]

10. CoachingConfig

Field	Default Value
min_calls_for_baseline	5

min_calls_for_validation	5
default_follow_up_days	14
extension_days	7
max_extensions	1
outlier_percentile	0.10
improvement_threshold	0.05

11. CoachingAggregationConfig

Field	Default Value
aggregation_window_days	30
canonical_categories	["Greeting & Rapport", "Needs Discovery", "Qualification (BANT)", "Objection Handling", "Closing Technique", "Scheduling & Booking", "Setting Expectations", "Follow-Up & Next Steps", "Empathy & Tone", "Product/Service Knowledge", "Compliance & Script Adherence", "Urgency Creation", "Active Listening", "Price Presentation", "Other"]
min_calls_for_profile	3
max_examples_per_bucket	3

12. InsightsConfig

Field	Default Value
change_threshold	0.05
booking_rate_threshold	0.5
objection_similarity_threshold	0.5
objection_handling_threshold	0.8
default_qualification_status	"cold"

Database Fallback Logic

When no tenant configuration is found for a `company_id`, `get_default_tenant_config()` initializes a configuration with the following overrides:

- **config_id:** `default_{company_id}`
- **industry:** `"home_services"`
- **primary_services:** `["general"]`
- **services:** Includes one `ServiceConfig` with:
 - `service_type:` `"general"`
 - `display_name:` `"General Service"`
 - `priority:` `NORMAL`
